Confirmation regarding EU Regulation 2025/40 on Packaging and Packaging Waste (PPWR)

As of August 12, 2026, only packaging with an EU Declaration of Conformity according to Article 39 of EU Regulation 2025/40 on Packaging and Packaging Waste (PPWR) may be placed on the market throughout the EU. Producers of packaging must, supported by their suppliers, demonstrate compliance with the sustainability and labeling requirements of Articles 5 to 12.

Based on information from our suppliers, we can issue the following confirmation for the packaging used by Lenzing Plastics:

Article 5: Requirements for substances in packaging

- Paragraph 4 (Heavy metal content)
The concentrations of lead, cadmium, mercury, and hexavalent chromium from substances do not exceed a total of 100 mg/kg.
- Paragraph 5: PFAS limits for packaging with food contact
Not applicable, as the packaging materials used by Lenzing Plastics, such as stretch film, strapping bands, cartons, etc., are not intended for direct food contact.

Article 6: Recyclable packaging

- Earliest effective date from 01.01.2030 (design for material recycling) or 01.01.2035 (large-scale recycling).

Article 7: Minimum recycled content in plastic packaging

- Earliest effective date from 01.01.2030 (minimum 35% PCR content) or 01.01.2040 (minimum 65% PCR content).
- We point out that the packaging materials currently do not meet the required PCR content of at least 35% as of 01.01.2030.

Article 8: Bio-based raw materials in plastic packaging

- No obligation yet.

Article 9: Compostable packaging

- Effective date 12.02.2028.
- We point out that the packaging is not compostable.

Article 10: Minimization of packaging

- Effective date 01.01.2030
- We point out that the packaging is practically designed to minimize packaging sizes.

Article 11: Reusable packaging

- Effective date 12.08.2026.
- We point out that the packaging is not reusable (except for certain transport packaging such as pallets).
